IMPORTANT TEST TAKING TIPS

"There is no elevator to success. You have to take the stairs."

1. GET A GOOD NIGHT'S SLEEP

Forget the all-night studying. A good night's sleep is crucial to test-taking success. Get your rest and eat a healthy diet on exam day.

2. STUDY AT THE SAME TIME EACH DAY

Try to study during periods of optimal brain function (usually between 6 - 8 pm).

3. DON'T CHANGE YOUR ANSWER

Trust your instincts! Sometimes second guessing yourself will lead to the wrong answer.

4. ELIMINATE AS MANY ANSWERS AS POSSIBLE

Process of elimination can help lead you to the correct answer.

5. REVIEW YOUR NOTES

It may be helpful to convert your notes into a Word document or another digital file for ease of reference. Organizing your notes can make it easier to focus on subject areas that may require further attention.

6. READ ALL OF THE ANSWERS

Even if you know the correct answer, thoroughly read each question and answer.

7. SOME QUESTIONS CAN BE TRICKY

The longest response is often correct. A response that repeats keywords in the answer is also likely to be correct. Make sure you read through them carefully.

8. UTILIZE YOUR COMPUCRAM® EXAM PREP SOFTWARE
